PG DIPLOMA IN COMPUTER APPLICATIONS

COURSE BROCHURE (2026-27)

INTRODUCTION

We offer a PG Diploma in Computer Applications to make students aware of the software development, database administration, and system analysis fundamentals for developing programming skills. The course modules are designed by experienced educators to enhance students' problem-solving and analytical abilities with incorporated finance fundamentals. Our semester modules are defined with emerging technologies to equip students with industry-relevant skills. The curriculum is defined with two semesters for improving fundamentals and advanced competencies required in the dynamic field of Information Technology.

MISSION:

- To introduce students to advanced technologies and practical experience through access to programming labs and projects.
- To enhance students' knowledge of programming fundamentals to apply their theoretical knowledge in a real-world scenario.

OBJECTIVES:

- To prepare students to understand the wide landscape of coding careers and equip them with skills to plan, design, test, deploy, and optimize the website.
- To enhance students' professional skills to explore job opportunities in the technical field and learn industry-relevant skills.

INSTRUCTIONAL DESIGN

The program is divided into four semesters and minimum credit requirement is 40 to get PGDCA through OL mode from Mangalayatan University. Minimum time period for acquiring PGDCA will be one year.
